CARRINGTON EDMONDSON

404-652-9962   mcarringtone@gmail.com   https://github.com/mcarringtone   linkedin.com/in/carringtonedmondson-281b7221b/

SKILLS

JAVASCRIPT, REACT, CSS, ADOBE PHOTOSHOP CC

PROFILE

Entry-level front-end developer proficient in programming technologies including Javascript, React, CSS.

PROJECTS

Keyboard Drum Machine https://github.com/mcarringtone/WEB-101

- Used Vanilla JavaScript to create simple drum kit.
- The user would press a key letter in which the application produces a sound from my unique personal drum kit folder.
- Continuing to expand sound library using guitar, keyboard, and other instrument samples

Movie Api https://github.com/mcarringtone/movie_api

- Used an api to pull current movies to display picture, title, and description in a grid like format.

Quote Generator https://github.com/mcarringtone/-Random-Quotes-Project

- Used event listeners to toggle between different quotes using a button
- Employed JavaScript Syntax to manufacture generator
- User toggles through quotes from pre-selected figures

CERTIFICATES

Kennesaw State

Web Design Introduction Certificate

EXPERIENCE

Tech Volunteer, **RenderATL — Atlanta, GA — Sept 2021**

- Helped guest speakers move from on one location to the next.

- Verified attendees's tickets and vaccination cards.

- Attended Leadership Development. Gained a deeper understanding of the relationship between project managers and the team.

- Attended the Ken Wheeler keynote. I was able to witness creativity and technical ability on a high level in a field I've previously studied before transitioning to web development.

- Connected with other engineers and gained further insight to an engineers' mindset.
